2014 Annual Scientific Meeting
The Gerontological Society of America
Annual Scientific Meeting Mobile Meeting Planner

The Mobile Meeting Planner is an interactive resource to help attendees make the most of their time at the conference. This is an HTML5 web app for all major mobile devices (iPhone/iPad, Android, Blackberry 7 and above). Please note this version is intended for mobile devices and will not work on desktop/laptop browsers, with the exception of Google Chrome. If you are not browsing on a mobile device, please use the full online Meeting Planner.

- Gain real-time updates.
- Conveniently access maps to meeting spaces and the Exhibit Hall.
- Find key information about GSA.
- Search the online program schedule as well as pull up your own, saved schedule.
- And more!

Users of iPhones and iPads also have the option to download a native iOS app version of the Mobile Meeting Planner, called ScholarOne My Itinerary, from the iTunes store. Once downloaded, select GSA's Annual Scientific Meeting from the list of available conferences.

Once either version is downloaded to your device, it can be run without the need for an active Internet connection. **In addition, you can sync an itinerary that you created online with the app by entering your unique itinerary name.**
